

PROJECT PROPOSAL

Stone Quarry Management System

Detail	Information
Client	Stone Quarry POS and Attendance System
Prepared by	Chamuthu Pabasara
Date	05.10.2026
Valid for	30 days from the date above

1. Project Overview

The client operates a stone quarry with two branches. Each branch handles about 50 sales per day (around 100 sales per day in total at peak). The client needs one central system to manage product sales, employee attendance with fingerprint devices, HR records and monthly salary calculation for both branches.

1.1 System Users

User group	Count	Access
Admins	3	Full access to both branches, reports, HR and salary
Branch 1 users	4	Access to Branch 1 only (sales, stock, role based)
Branch 2 users	4	Access to Branch 2 only (sales, stock, role based)
Staff (fingerprint only)	70	No system login. Attendance is recorded by fingerprint only

In total there are 11 system users and 70 staff members whose attendance and salary are managed through the system.

2. Scope of Work

2.1 Point of Sale (POS) and Sales

- Separate sales counters for each branch, with invoice printing
- Product catalogue, pricing, customers and payments
- Stock tracking per branch and stock transfer between branches
- Daily and monthly sales reports per branch and combined

2.2 Fingerprint Attendance

- Integration with fingerprint attendance terminals at both branches, with fingerprint enrolment for all 70 staff members
- Automatic recording of check-in and check-out times in the system

- Late, overtime and absence reports

2.3 HR Section

- Employee registration and profiles for all 70 staff members, assigned to a branch
- Shifts, leave records, salary advances and loans

2.4 Salary

- Monthly salary calculation from attendance, overtime, allowances and deductions
- Payslips (PDF) and salary reports

2.5 System Administration

- User roles and permissions (owner, branch manager, cashier, HR)
- Owner dashboard with an overview of both branches
- Daily automatic backups

3. Technology

- Framework: Laravel (PHP)
- Database: MySQL
- Hosting: Cloud VPS server with HTTPS (SSL) and a .com domain name
- Access: Web based, usable from any device with a browser

4. Packages and Pricing

The client can choose one of the two packages below. All prices are in Sri Lankan Rupees (LKR).

	Package A: Subscription	Package B: Full Payment
Starting payment	LKR 30,000 (one time) Covers the starting development cost and the first 3 months of development and maintenance	LKR 200,000 (one time) Full development cost
Monthly fee	LKR 10,000 per month, starting from the 4th month	None during the included support period
Maintenance and development	Included for as long as the subscription is active	Included for 6 months after delivery
Updates	Included for as long as the subscription is active	Included during the 6 month period
After the included period	Continues monthly with no change	Maintenance and development by a separate agreement
Server cost	Paid by the client	Paid by the client
Domain cost	Paid by the client	Paid by the client

4.1 Costs paid by the client in both packages

- Server (VPS): billed at actual cost, estimated at about USD 7 per month for the recommended plan

- Domain (.com): billed at actual cost, estimated at about LKR 4,000 per year
- Fingerprint attendance devices: purchased by the client (hardware is not included in the packages)

Server and domain prices are estimates and may change.

4.2 Cost comparison (development and maintenance only)

Period	Package A: Subscription	Package B: Full Payment
First payment	LKR 30,000	LKR 200,000
Total after 6 months	LKR 60,000	LKR 200,000
Total after 12 months	LKR 120,000	LKR 200,000 plus any agreed maintenance after month 6
Total after 24 months	LKR 240,000	LKR 200,000 plus any agreed maintenance after month 6

Package A has a lower starting cost. Package B is cheaper if the client plans to use the system for a long time and only needs the included 6 months of support.

5. Payment Terms

- Package A: the starting payment is due before work begins. Monthly fees are due in advance from the 4th month.
- Package B: payment is due before work begins, or as agreed in writing.
- Server and domain are paid directly by the client or reimbursed at cost.
- Work outside the agreed scope is quoted separately.

6. Acceptance

By signing below, the client accepts this proposal and the selected package.

Selected package: ☐ Package A: Subscription ☐ Package B: Full Payment
